Choose Well Site

To view a static graph of a completed well site, choose from the available drop-down
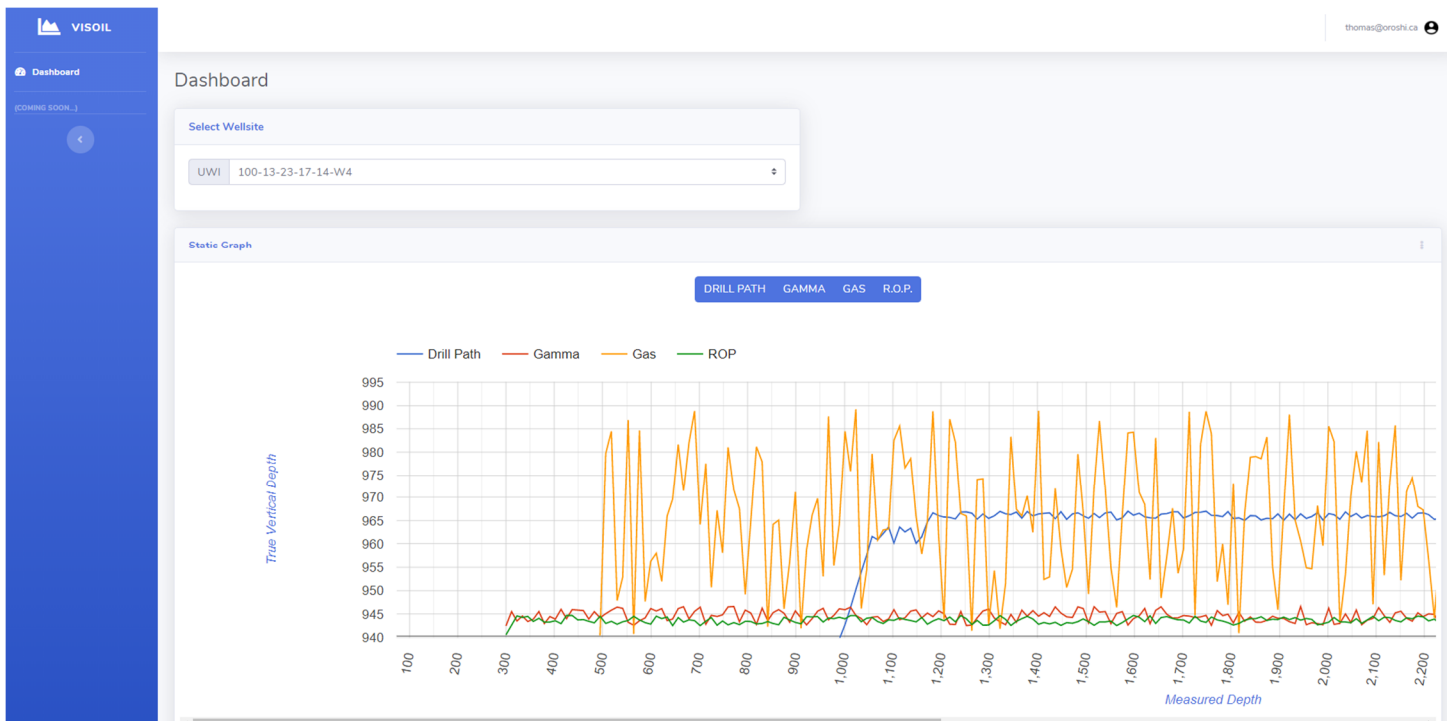

1. Select the drop down list

2. Select from available well sites

3. A graph of the drilling data will be displayed

Toggle Layers

Turn graph values on and off

1. Click on the toggle buttons to turn graph values on and off
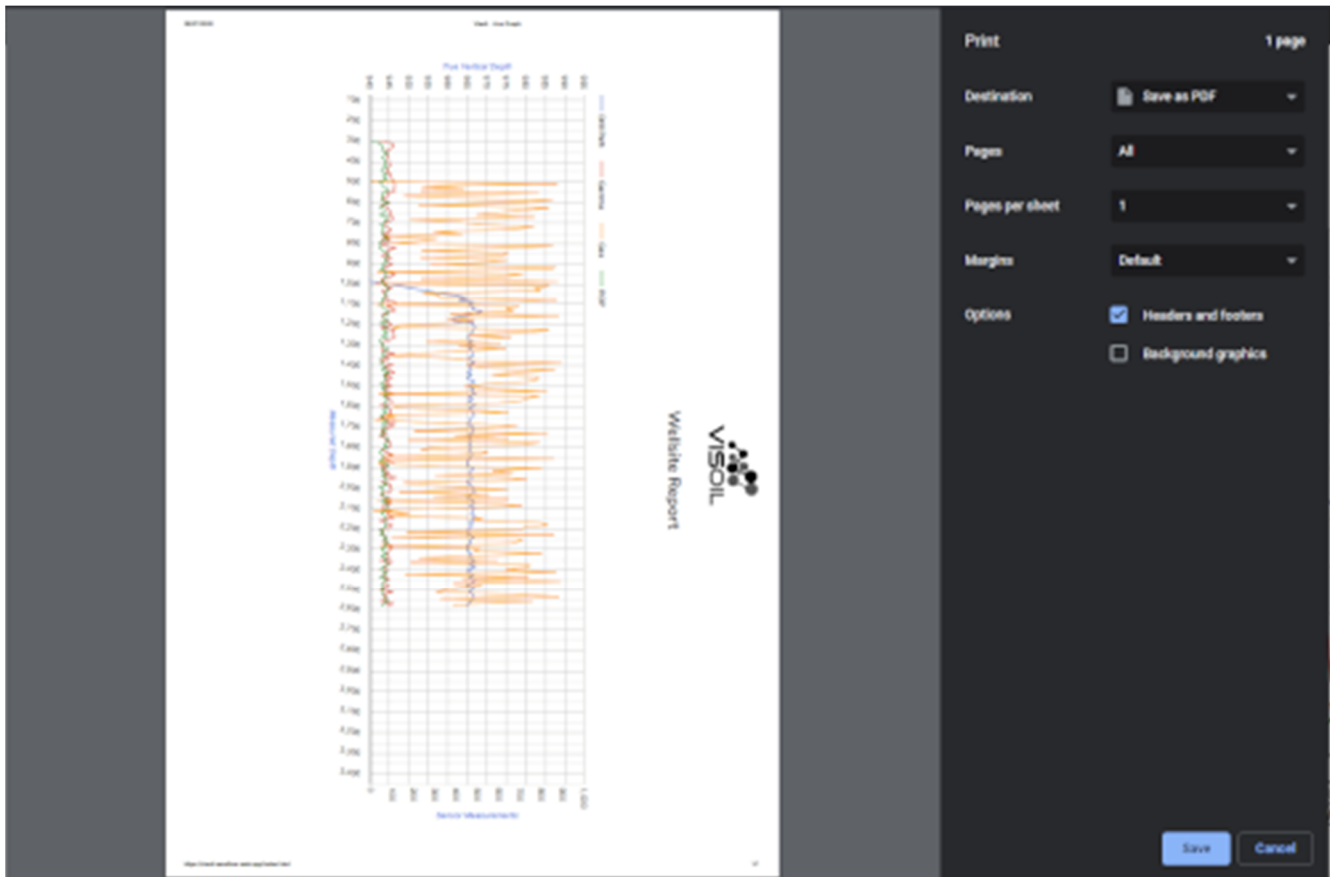

Print to PDF

Print the static graph to pdf

1. First, click the 3 dots in the upper right corner of the graph

2. Select 'Print to PDF'

3. Customize print settings, and press Print

Live Preview

Watch a live graph

1. First, expand the live graph component of the dashboard

Live Preview

2. Next, click the 'START' button to begin the preview

START   CLEAR

3. To stop the live preview, click 'STOP'

4. To clear the graph, click 'CLEAR'

ⓘ A popup will display, indicating that the database has been cleared of the live preview data

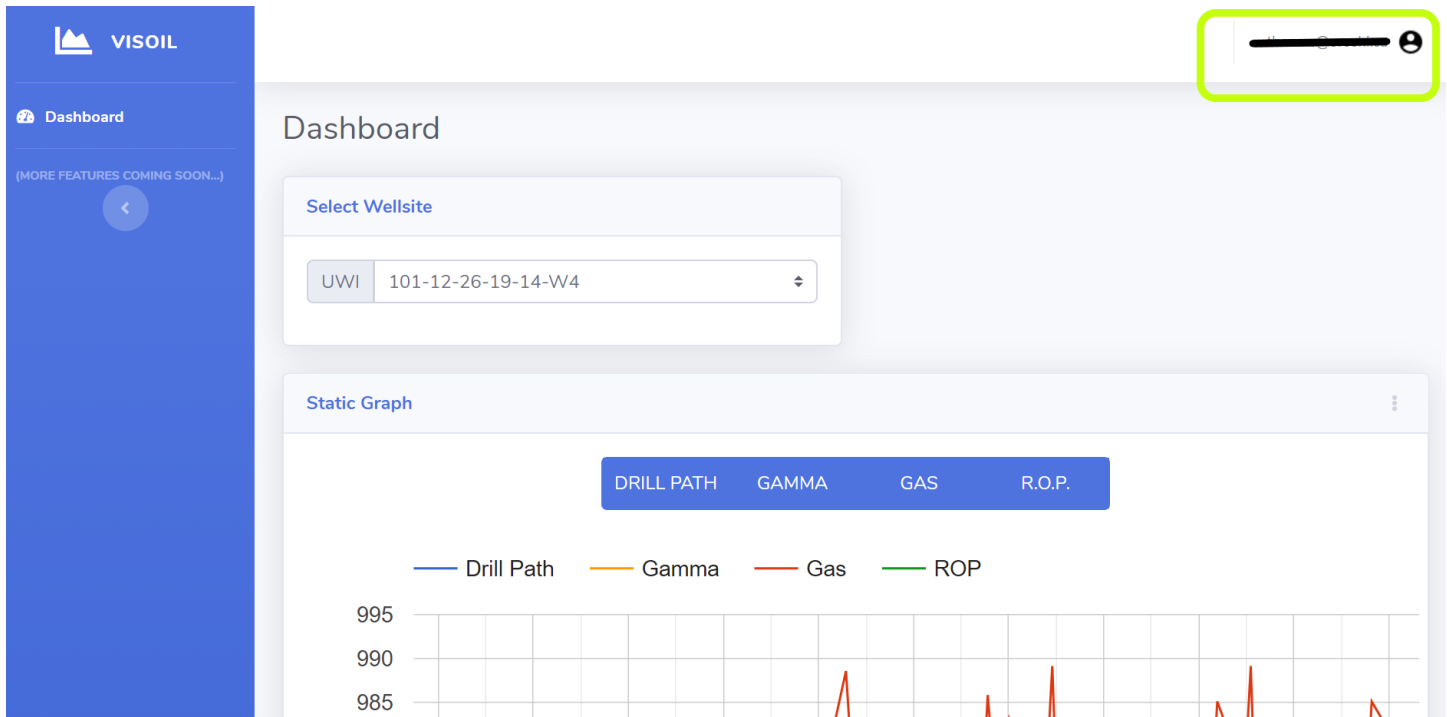

Database Cleared ✕

⚠ The live preview is for demo purposes only! Stopping and Starting the preview without clearing the graph may result in unexpected behavior
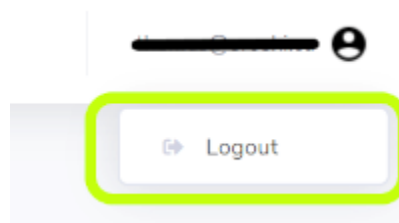

Logout

To end your session, log out of VISOIL

1. Click on the profile icon in the upper left corner

2. Click 'Logout'

3. Confirm that you want to end your session
